Background

Mary Orphanage Home started its journey in 2014 with only 10 helpless orphan children. At present 35 children accommodated at the orphanage home. The children have come from different parts of the Bangladesh. The orphans who have been accommodated at the home are in dire need of support. Because, some of the children do not have either their mother or father and some have lost their parents. Aloshikha RSD Center has taken this specialized initiative to ensure their rehabilitation including education, health and create employment opportunity for the future. Currently all the children are studying at the Maria Child Care and VTC School that are operated and guided by the Aloshikha RSD Center. The chief initiator of the Orphanage Home, Mrs. Martha Halder thinks that it would be praiseworthy to establish them in the main stream of our society through these services.

Still many children are coming from different parts of the country every day to this orphanage home but it is not possible to accommodate them due to financial constraint and lack of other supports. Merely as a private sector initiative it would not be possible to meeting up the huge expense of their fundamental rights which we have undertaken from 2014 to 2024. In this context we are cordially seeking generous support from kind hearted people from regional, national or international levels who intends to support the initiative.

19	Name: Shoul Falia Address: Lakhirpar Radhagong, Kotalipara, Gopalgong Aim of life: Automobile Engineering Expertise to be achieved: Being able to design, manufacture and operate Vehicles. What do you I want to do after the SSC exam? After passing out of my SSC exam. I went to accomplish a four-year diploma course in Engineering (Mechanical). I have spent a significant period of my life at the Aloshikha orphanage Home, where I lived for two years. I arrived at this Orphanage Home in June 2023. My Parents sent me here to shape my future. Leaving behind affection, love and home sickness I come to this place with the singular goal of becoming a better Person. I learned many valuable skills and developed my apprehension of judging right and wrong. The hostel life has become an unique experience that help to shape up a student's Character. I will always be grateful to the Aloshikha Orphanage Home for teaching me about morality, discipline, respect for elders, and working with dedication. These lessons have profoundly influenced my character. Those who experience hostel life often develop a strong sense of discipline. I believe my time at Aloshikha has been invaluable to my future life. There were many occasions when I faced challenges and made mistakes. I have experienced moments of anger towards authority and disobedience. However, I learned from these mistake and received love and forgiveness from the elders. Additionally. I earned respect from my juniors. Who saw me as an elder brother? In conclusion, I want to express my sincere gratitude to father James Mridul Halder and Mother Martha Halder for providing me the opportunity to build my educational life.	

20	Name : Lupi Tripura Address : Salem para, Ruma, Bandar ban Hill Tracks. Goal : Marine Engineer. Aim : My objective is to build large shipbuilding Industries and Launches through which the country's economy can improve. What do you I want to do after the S.S.C exam? I want to do diploma engineering. Life story of long 8 years: When I first came here, I was very young. I did not have much ability to understand good and bad. My parents sent me here with the hope of becoming a good person. I have come far away from my home left behind all love and affection, but only one reason is to become a good person. I came here in 2017, when I was studying at class 3. Coming here I have experienced many things such as a Barishal local language, studies, experience of hostel life and the ability to judge good and bad. I think hostel life makes a children/student self dependant and disciplined. The hostel life, help grow interest in studies, daily routine work, respect for elders, moral education are practiced. This gives a great opportunity to develop one as a good person. Those who have experienced hostel life are certainly entitled to a disciplined life, which is also a great experience for me. In these eight years, I have spent a large part of my life in the Aloshikha Campus. Many times I have spent it with sorrow, laughter and Jokes. In the meantime, I have found the moral teachings of religion, studies, discipline etc. It will play a big role in the improvement of my life. Many times I have been angry with elders and even argued face to face, in a word these were my failures. People make many mistakes in their life. When they come to know about the truth they may change. During my days here, I made many mistakes. The mistakes have taught me to become a good human being. Behind this change forgiveness, love, etc. of the elders played a greater role. One big lesson in particulars that will be very useful in my life is to work as a team leader. Here, I have learned a lot by working as a team leader. I have also had a lot of experience. I will always be indebted to those who were my foster parents here (James Mridul Halder and Martha Halder).	

21	Name: Iska Khumi Address : Lay thang Para, Than Chi, Bandarban. Goal : Architectural Engineer. Aim : I want to draw beautiful designs of various types of Buildings. What do you I want to do after S.S.C exam? After passing out of my S.S.C exam, I want to peruse a four years diploma course, preferably at a Govt. Polytechnic Institute. **Life story of long 8 years:** I came this Orphanage home when I was 9 years old. When I was studying in class 3 I had been in another hostel for 5 years. My father admitted to my previous hostel when I was just four years of old. Now I am 17 years of old. I am a candidate of S.S.C examination. I will leave Beth Merry Hostel after the exam. Before I leave the hostel life, I am going to write a small story about myself. Actually hostel life is like a war for me; one side is suffering, and the other side is joy. I would say hostel life includes work, sports, along with studies. In this long hostel period of mine, I have faced many sufferings whether its from working or anything. I think having parents in a poor family is like a war field. So, I left my parents and my home land for this long period. I came here to shape my life as a human being. There have been many times. When I felt like leaving this hostel, but I chose not because I foresaw my life. I believe that hostel life is similar to a war. For me I think working through patience and helping each other shine in life. I've had some joyful moments in the hostel. I've worked with my friends, shared jokes, and sometimes even quarreled with them. We also played football and badminton together. These were time when I didn't listen to our hostel staff and got punished for being disobedient to my foster parents. Despite these challenges, these eventful memories give me happiness. Many important events have shaped my life. During the December vacation after completing my 9th grade final exam, I had the amazing opportunity to reunite with my family for the first time in eight years of living in the hostel. At first, they didn't recognize me, but I confidently introduced myself, and it was their son. This experience is a significant part of my journey in the hostel. I also want to emphasize that I have gained a wealth of knowledge and invaluable skills during my time at the Aloshikha Orphanage Home. I owe to my fortes parents who cared about our food, health, education, cloths, and mental development.
